Why WebEx | **Products** | How To | Plans | Host a Meeting | Attend a Meeting

WebEx Meetings | **Features** | Meeting Spaces | Audio | Video | Mobile

Easy, productive online meetings

WebEx Meetings gives you all the tools you need.
You choose how you want to work together.

Home Page

Sign up FREE
WebEx Meetings

Invite

Scheduling is easy

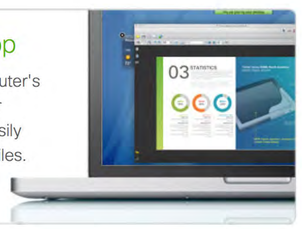
Set up a meeting in your WebEx account – or through your Microsoft Outlook calendar with just one click. Launch a meeting from Microsoft Office applications or IM clients.

Get the plug-in!

Share

Your desktop

Share your computer's entire desktop, or anything on it. Easily switch between files.



Files

Share a Powerpoint presentation, a PDF, even a video clip. If you can see it, you can share it.

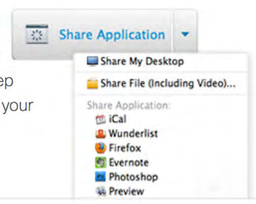
Change presenters

Let someone else in your meeting share content too.

Applications

Share an individual application and keep everything else on your desktop private.

PREMIUM



Collaborate

Mark it up

Use sketch tools to highlight parts of a shared document or application.

HD video

Choose full-screen mode and watch the presenter in crisp, clear high-definition video – up to 720p resolution!

PREMIUM

Choose your view

See up to seven people at once on your screen. Or watch their video feeds next to whatever's being shared, in side-by-side view.

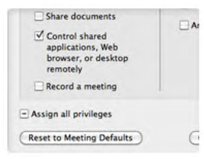
Chat

Start a private chat or send a message to everyone in your meeting. Post a question now for the presenter to answer later.

Remote control

Give someone else in your meeting control over your mouse to make edits or demo an app.

PREMIUM



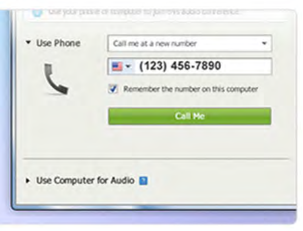
Whiteboard

Capture a group brainstorming session or take notes with WebEx's online whiteboard.

Not the usual conference call

Call Me – toll-free!

Add the Call Me feature and make attending by phone even easier – just enter your number and the meeting calls you. No dial-in, no passcodes. You also get a toll-free number for those who want to dial in. PREMIUM



Call in with VoIP

Connect using your computer's built-in audio. Or use a headset or microphone, and computer speakers.

Toll call-in

Attendees can phone in using a toll number. (Long distance charges may apply.)

PREMIUM

Active Speaker

WebEx Active Speaker highlights the person speaking dynamically, so you'll always know who's talking.

WebEx Meetings | Pricing | Special Features | Other Resources

Get instant access to the people you work with.

- Easy video conferencing
- Share anything on your screen
- Cisco security and reliability

See pricing

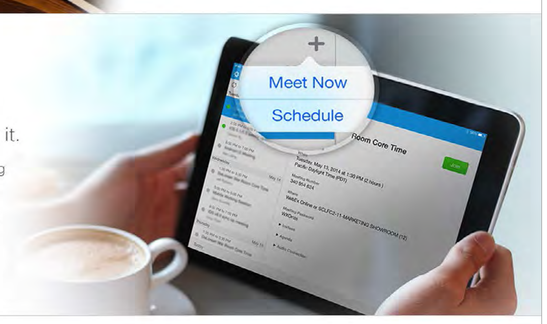
Let your meeting call you.
No dial-in, no passcodes.
Add Call Me

Meet instantly

When we say easy, we mean it.

Choose 'Meet Now' – and start working together. Or schedule ahead.

Using Outlook? Select the WebEx icon to make it a video conference.



Video conference

- Meet 1-on-1 in full-screen
- See up to 7 people's video feeds
- Watch video-feeds and sharing side-by-side

Share anything on your screen

Show your whole desktop.
Or just one application – and keep the rest private.

Record

Everything in your meeting – including video feeds.

Secure, shared work space

Persistent cloud space for commenting, live chat, and version-controlled file sharing.

We work where you work

Your platform. Your device. Your browser.

Cisco services are delivered securely and reliably to wherever you are working today.

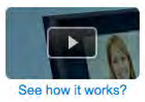
Why WebEx | **Products** | How To | Plans | Host a Meeting | Attend a Meeting

WebEx Event Center | Features

Cisco WebEx Event Center

1 866-863-3911

Stage an impactful large-scale event, or offer a small webinar. Impress prospects with a sharp, professional sales presentation. Powerful event management features and tracking tools will maximize your ROI – whatever your business goals.



See how it works?

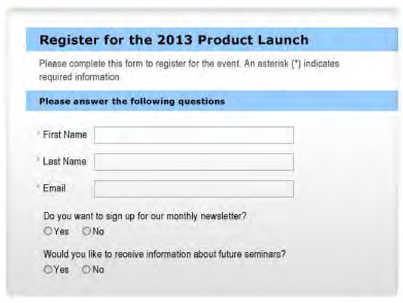
- **Up to 3,000 participants***
- Multimedia and application sharing
- Private preparation room
- Threaded Q&A, chat, polling, and attention-monitoring features
- High-quality video (360p) and voice conferencing, plus broadcast audio
- Customizable registration, lead tracking, and campaign management
- Record and play back your events on-demand

*A maximum of 500 participants only can see live, shared video of presenters or panelists, in video-enabled events.

Interact with your audience

Engage attendees with online presentations and video, and mark up shared content in real time. Keep your event lively with polling, threaded Q&A, and chat. Display up to five panelists at a time, or one speaker in full-screen view – all with integrated audio and high-quality video.

Easily manage events from start to finish



Invitations and registration are customizable and completely automated. Lead scoring and tracking make it easy to follow up with prospects. You can import your event data right into your CRM and Marketing Automation systems.

Count on Cisco security, reliability, and performance

WebEx Event Center is delivered through the Cisco WebEx Cloud – a highly available platform with unmatched performance. There's no complicated software to install or costly hardware to purchase, and the Cisco WebEx Cloud ensures the highest grade of enterprise security.

Deliver a seamless event with expert help

Let award-winning Collaboration Service for WebEx Events (formerly Assist Services) give you a hand! Plan and prepare with a certified WebEx producer, and ensure smooth execution with expert technical support during your event. Call 1 866 863 3911 to purchase services.

Learn more: Collaboration Service for WebEx Events.

Cisco WebEx Training Center

1 866-863-3911

Effective online training, and rich, collaborative learning environments.

Buy it today!
Call **1 866-863-3911**

Deliver highly interactive classes and training online, with video, breakout sessions, and hands-on learning labs. Ecommerce and sophisticated testing, tracking, and grading capabilities are built right in.

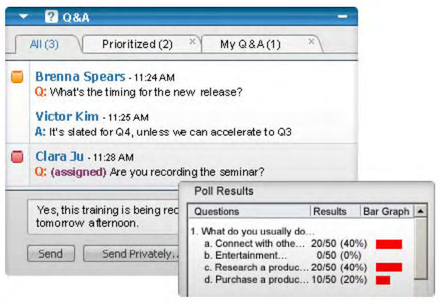
See how it works?

- **Up to 1,000 participants per session**
- High-definition live video (up to 720p)
- Share multimedia, an application, or a whiteboard
- Integrated registration, testing, and grading
- Live breakout sessions and hands-on labs
- Threaded Q&A, chat, polling, and quizzes
- Learning management systems (LMS) integration
- Record live sessions and build an on-demand training library
- Join and participate from your Android and iOS device

Extend the reach of training programs and course offerings

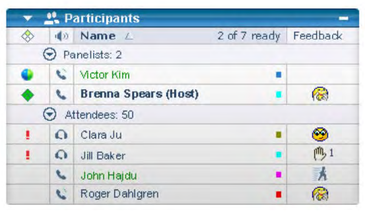
Roll out new products across your organization in days instead of months, or make continuing education more convenient for students. Learning is accelerated in collaborative breakout sessions, and learners get real practice in hands-on labs.

Dynamic, interactive learning experiences



Keep learners focused and interested with high-definition video of the presenter, or up to six live video feeds in the main session. Encourage students to participate and interact with polling, threaded Q&A, and lively group or private chat.

Measure, evaluate, and improve



During your sessions, you'll know whether learners are engaged thanks to innovative quick-response and attention-monitoring features. Later, access detailed reports and data so that you can increase the effectiveness of each new class or training session.

Count on Cisco security, reliability, and performance

WebEx Training Center is delivered through the Cisco WebEx Cloud – a highly available platform with unmatched performance. There's no complicated software to install or costly hardware to purchase, and the Cisco WebEx Cloud ensures the highest grade of enterprise security.

Why WebEx | **Products** | How To | Plans | Host a Meeting | Attend a Meeting

Cisco WebEx Support Center

1 866-863-3911

View and control remote desktops to provide instant, personalized support.

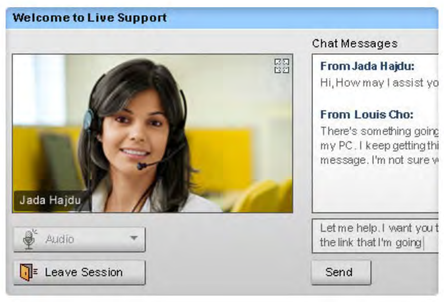
As low as $99 per month SPECIAL OFFER

Buy it today!
Call **1 866-863-3911**

Support customers or internal users no matter where they are, and reduce costs at the same time. Start an online session instantly and bring in the resources you need to solve problems – on first contact.

See WebEx Remote Support in action: Quick Tour
Learn more: WebEx Remote Support (PDF)

- **Unlimited support sessions**
- Up to 5 participants per session
- Works across firewalls, and with all major platforms and browsers
- Inbound and outbound support requests
- Web-based Automated Call Distribution (WebACD) routing and queue management
- Localization for 11 languages
- Integrated high-quality video (360p)
- Integrated voice conferencing (additional charge)

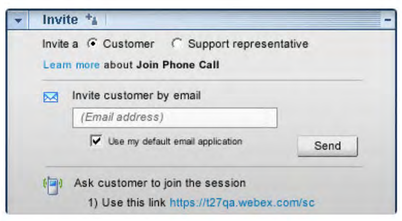


Better support, faster resolution

- Use WebACD to direct users to the right specialist.
- Meet face-to-face in high-quality, full-screen video sessions.
- Observe and troubleshoot software and systems in real time along with the customer.
- Reboot and reconnect without losing session continuity, even in safe mode.

Increase efficiency and reduce costs

- Minimize on-site service calls.
- Troubleshoot and diagnose problems quickly.
- Chat with other reps or bring in experts to increase first-contact resolution.
- Support 5 users per rep with a multi-session interface.



Easy to use – for your reps and customers

Boost rep productivity and improve your customers' support experience with convenient sessions and faster, easier problem resolution.

- Enable users to start a support session with the click of a button on your website, within your product, or in an email signature.
- Use the chat-phrase library for faster responses and scripted calls.
- Install software patches instantly with drag-and-drop file transfer.
- Collect system information with one click – and save it for future reference.

Simplify support management

WebEx Support Center is delivered through the Cisco WebEx Cloud – a highly available platform with unmatched performance. There's no complicated software to install or costly hardware to purchase, and the Cisco WebEx Cloud ensures the highest grade of enterprise security.

Featured solution:

Deliver WebEx products quickly and easily with cloud managed networks from **Meraki**, now part of Cisco.

"The industry is ready for a great leap forward, and Cisco is making that leap."
Rowan Trollope, SVP and GM, Cisco Collaboration Technology Group
Cisco pioneered unified communications to carry voice and video over data networks, reducing costs and simplifying operations. We developed a global conferencing cloud that synchronizes voice, video, and data. Web conferencing for everyone became a reality.
Today, your meetings travel with you through free mobile apps.
Next... your own Collaboration Meeting Room, permanent, personal space with a unique address where you can conference with folks joining from any standards-based video system.
Watch a demo
Cisco innovation continues to deliver more connectivity with greater ease, leading the industry into the future.
